

PRODUCTION QUALITY WAFER PROCESSING EQUIPMENT

LEARN MORE!

Cee® X-Pro II Workstation

Our fully integrated solution, customizable for your wafer processing needs

The Cee® suite of wafer processing equipment is a complete system for developing production quality processes in R&D, laboratory, or low-volume production environments.

PRODUCT OFFERINGS

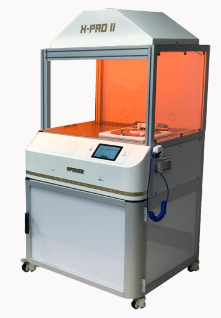

INTEGRATED

The Cee® X-Pro II Workstation is compatible with all Cee® standard process modules: Spin Coaters, Bake Plates, and Developers. An all-in-one solution for handling fume control, waste management, chemical storage, and more!

CUSTOMIZABLE

(x4) 200mm process modules
[or]
(x2) 300mm process modules
[or]
a combination of both

FLEXIBLE

Whether you need one tool or ten, the Cee® X-Pro II Workstation is available in a 2 bay, 4 bay, or combinable configuration for ultimate accomodation of your needs.

PLUG & PLAY

You'll be up & running in virtually no time.
